Hello Robert

I am writing to update you about the Hunters Point Naval Shipyard. We're trying hard to work through the issues with the Navy and meeting with them and our state colleagues on Monday, April 15.

Attached is a letter my staff sent that proposes a path forward. I hope this letter facilitates a productive meeting. We're trying to get field work started on soil as soon as possible. At the same time, we can continue discussions to resolve issues about buildings. Our proposed process will provide transparency and public involvement along the way.

We will plan to brief the offices of Congressional representatives shortly after the April 15 meeting.

Best regards,
